VERY LATEST NEWS.

Seward for Grant and Colfex.

Several for tirems and telfar.

Washington, Sept. 23,
Becretary Seward has at least decisred his views
on the presidential question, if the somewhat
circumstantial accounts of what took piace in the
Cabinet to day are to be credited. The session
lasted over three hours, and the political question was not raised until after Mr. Raudall had ratired, so that he had no occasion to show his
hand. Some allusions to the pending context,
it is said, called torth from Mr. Wells his avowal
that he tayored the election of Seymour and Blair. The Company have ample means of which the Government grants the right of way, and all necessary time-ber and other materies found steng the line of its operations; also 12,800 acres of land to the mit; taken in alternate sections on each also of its road; also United Battee Thirty year Bonds, amounting to from \$15,000 to \$45,000 per mile, according to the difficulties to be sometiment of the various sections to be built, for which it takes a second mortgage as accurity, and it is expected it takes a second mortgage as a scurity, and it is expected. it is said, called forth from mr. When has a blair, that he favored the election of Seymour and Blair. McCalloch followed suit for Seymour and Blair. Mr. Seward inding probably that his time had come, then spoke out unequivocally for Grant and Colfas. It is understood that Mesars Schoffeld and Evarta did not speak of the theory of the company their position as cong troops, mails, &c. & BARNINGS OF THE UNION PAULFIC MAILEOAD, from its Way or Local Business only, during the year ending June 30th, 1868, amounted to Mesars Schofield and Evarta did not sicak of their preferences, decoming their position as consistent Republicans sufficiently well known, when they accepted their places in the Cablnet, us to make a formal declaration of their choice for the Presidency unnecessity. This removes the last doubt about the position of Johnson's Cabinet, which stands four Democrats to three Republicans. One of the former, however, (Randall, will so shape his course as to make many still tunk he is a Republican, and, had he say still to hope from Grant's administration, he would be for the winning side.

The SUFFACT FIGH.

In the Criminal Court this morning, Mr. Merrick continued his argument to show that Surfact was within the scope of the President's am nexty proclamation. Mr. Riddle opposed the argument, contending that by the set of the 10th of January, 1807, the authority of the President to grant amnessy was repealed and Congress only had power to make such pardons. He also contended that Burratt did not come seen with in the meaning of the terms of the proclamation. After the conclusion of arguments in the Surratt case to day, Judge Wyle reviewed the carriety and the state of the self set has been presented, the off-uce is charged in the indiction of mounted to giving aid and comfort to the carriety endering into a conspiracy to addict and murder the late. President Liccoln. The off-new was a misdeneum and not felony at common law. It was not treased and therefore was not covered by the President's proclamation of amisety of Joly last. The Court, for reasons elaborately set forth, suriained the demurrer of the District Attorney to the plea of the connect for the defendant. Counsel for the present asked levye to make a motion to meet the technical objections of the Court in order that it might stand in proper condition for review. This request was granted by the counsel for the defendant court by the counsel for the deventual and the Court. Judge Wyle said the counsel for the defendant morne be ready with an amended plea to-morrow intending as he desired to zo to work on the irid. The Surratt 7 rial.
